IMANGA NETHMINI

SOFTWARE ENGINEERING UNDERGRADUATE

Colombo, Sri Lanka | 071 698 0642 | imanganethmini2419@gmail.com | https://www.linkedin.com/in/imanga-nethmini-734892333 | https://github.com/Imanga12Nethmini

PROFESSIONAL SUMMARY

Motivated and analytical Software Engineering undergraduate with practical experience in developing web-based applications and a strong foundation in software development, databases, UI/UX, and digital systems. Skilled in Python, Java, React, MongoDB, HTML, and CSS, with experience in understanding user requirements, developing technical solutions, testing applications, and collaborating with teams. With 2.5 years of leadership experience in AIESEC, I have developed strong communication, problem-solving, teamwork, and project coordination skills. Passionate about building efficient, scalable, and user-focused software solutions while continuously developing technical and professional expertise.

SELECTED PROJECTS

CropContract – Group Project | React, Vite, FastAPI, MongoDB

Developed digital agricultural platform connecting farmers, buyers, and agricultural officers, featuring crop contract management and agricultural disease monitoring. Developed for Project Nova at the University of Sri Jayewardenepura, the project was selected among the Top 10 finalist teams.

Web-Based Property Tax Assessment & Notification System | React, Python, MongoDB, Tailwind CSS

Developed a web-based system for property registration, tax billing, payments and notifications for Mahara Pradeshiya Sabha.

Personal Portfolio Website | React, Vite, HTML, CSS

Built a responsive portfolio showcasing projects, technical skills and software development work.
